RSVP at jl Carr@ksu.edu or call 620-842-5445.

What's your safety net for alfalfa?

If you are a corn or wheat producer, you have multiple crop insurance options. The same options are not available for alfalfa—the nation's 4th most valuable field crop.

RMA has hired a contractor to assist with the development of crop insurance programs that better meet the needs of alfalfa and alfalfa-grass mixture producers.

Producer input is critical. Join us to help shape new/improved forage insurance options.
